Dear Ferguson-Florissant School District Families,

I am proud to share the 2025–2026 Student Expectation Code (SEC). This document reflects our collective commitment to safe, supportive, and equitable learning environments. It outlines clear behavioral expectations, tiered responses, and restorative practices that promote student accountability and growth while minimizing lost instructional time.

This year's SEC builds on the input of educators, staff, and community members across FFSD. We continue to align with state and federal laws while embedding trauma-informed, developmentally appropriate practices. Our aim is not only to guide behavior, but to ensure every student feels seen, supported, and empowered to thrive.

As we move forward together, I invite you to join us in fostering a culture where all students can succeed, regardless of background or circumstance.

Sincerely,

Dr. Howard E. Fields, III
Superintendent

Compliance with New Law on Student Electronic Devices

In May, Missouri lawmakers passed Senate Bill 68, which places statewide restrictions on the use of personal electronic devices by students during the school day. As a public school district, we are legally required to comply with this new legislation. As such, the following expectations regarding student electronic device use will go into effect immediately and are not optional.

At Ferguson-Florissant, we are committed to helping students develop responsible technology habits. We recognize that personal devices can offer educational value; however, when used during instructional time, they often interfere with learning, focus, and engagement.

Effective 1st Day of School:

- All personal electronic devices, including cell phones, earphones, and gaming devices, must be turned off, out of sight, and not in use during the school day.
- Students may use their personal devices before and after school hours, and we expect responsible use during those times.
- A few limited exceptions apply (such as for medical needs or approved instructional purposes). These are outlined in the full policy below.

We appreciate your understanding and support as we implement this legally mandated policy. Our shared goal remains to create focused, respectful learning environments where all students can thrive.

DEVICE FREE IN FFSD

A new Missouri law now requires a complete ban on the use of cell phones and personal electronic devices during the school day. Limited exceptions may be made for medical reasons, emergencies, or for school-issued devices.

Cell phones

Earbuds & Headphones

Smart Watches

Other Communication Devices

Students will be able to:

- ✓ Learn in an environment with no distractions
- ✓ Strengthen healthy connections
- ✓ Improve their overall wellness

Electronic Device Progressive Discipline

To maintain a focused and respectful learning environment, the following progressive discipline steps will be followed regarding inappropriate use of electronic devices during the school day:

- **First Offense**
 - Verbal warning and redirection by a teacher or staff member.
- **Second Offense**
 - A staff member will contact the student's parent or guardian to inform them of the continued noncompliance.
- **Third Offense**
 - The student will be referred to the office, where the electronic device may be confiscated and held until the end of the school day.
 - If confiscated, a parent or guardian must retrieve the device from the school.
- **Chronic Offenses**
 - A parent meeting will be scheduled.
 - A behavior support plan will be developed and implemented.
 - The student will receive a referral for noncompliance.
 - The school may assign a Level 2 or Level 3 disciplinary consequence for noncompliance, depending on the severity and frequency of the behavior.

POLICY JFCD: STUDENT USE OF PERSONAL COMMUNICATION DEVICES

Students are prohibited from displaying or using personal communication devices during the school day.

Exceptions and Permitted Uses

Students may display and use a personal communication device during the school day in the following circumstances:

1. In the case of an emergency.
2. When authorized to use such a device for an educational purpose.
3. When the district determines that the display or use is legally necessary to comply with any of the following:
 - An individualized education program (IEP)
 - A 504 plan
 - An individualized emergency healthcare plan or an individualized healthcare plan established under § 167.625
 - The Americans with Disabilities Act
 - The Rehabilitation Act of 1973
 - The Civil Rights Act of 1964
 - The Equal Educational Opportunities Act of 1974

Use for Educational Purposes

The superintendent, principal, or designee may authorize student use of personal communication devices for educational purposes. Such use shall be consistent with the educational objectives of the district. Possession or use of personal communication devices must not in any way disrupt the district's educational process, endanger the health or safety of the student or any other person in the district, invade the rights of others at school, or involve illegal or prohibited conduct.

Disciplinary Procedures and Measures

Students who violate this policy will be subject to discipline, including potential device confiscation, as detailed in JG-R1 and the student handbook.

District Responsibility

The district will not be responsible for technological support of students' personal communication devices. Students who bring personal communication devices to school do so at their own risk. The district assumes no responsibility for lost, stolen, damaged, or misplaced devices.

Notification and Authorization

The district will publish this policy on the district's website and give appropriate notice to parents/guardians and students.

Policy JFCF: BULLYING

In order to promote a safe learning environment for all students, the district prohibits all forms of bullying. The district also prohibits reprisal or retaliation against any person who reports an act of bullying among or against students.

Definitions

Bullying – In accordance with state law, bullying is defined as intimidation, unwanted aggressive behavior, or harassment that is repetitive or is substantially likely to be repeated and causes a reasonable student to fear for his or her physical safety or property; that substantially interferes with the educational performance, opportunities or benefits of any student without exception; or that substantially disrupts the orderly operation of the school. Bullying includes, but is not limited to:

- Physical actions, including violence, gestures, theft, or property damage
- Oral, written, or electronic communication, including name-calling, put-downs, extortion, or threats
- Threats of reprisal or retaliation for reporting such acts

Cyberbullying – A form of bullying committed by transmission of a communication including, but not limited to, a message, text, sound or image by means of an electronic device including, but not limited to, a telephone, wireless telephone or other wireless communication device, computer or pager. The district has jurisdiction over cyberbullying that uses the district's technology resources or that originates on district property, at a district activity or on district transportation. Even when cyberbullying does not involve district property, activities or technology resources, the district will impose consequences and discipline for those who engage in cyberbullying if there is a sufficient nexus to the educational environment, the behavior materially and substantially disrupts the educational environment, the communication involves a threat as defined by law, or the district is otherwise allowed by law to address the behavior.

Consequences

Students who participate in bullying or who retaliate against anyone who reports bullying will be disciplined in accordance with the district's Student Expectation Code (SEC). Such discipline may include detention, in-school suspension, out-of-school suspension, expulsion, removal from participation in activities, exclusion from honors and awards, and other consequences deemed appropriate by the principal or superintendent. The district will also contact law enforcement when required by law or notify social media companies of inappropriate online activity when appropriate.

Even in situations where the district does not have jurisdiction to discipline a student for bullying, such as when the acts take place off campus and there is an insufficient nexus to the district, the principal or designee will take appropriate actions to assist student victims. Such actions may include, but are not limited to:

- Contacting the parents/guardians of the victim and the alleged perpetrators
- Communicating that this behavior is not allowed on district grounds or at district activities
- Notifying the appropriate district staff to assist the victim
- Taking additional action when appropriate, such as notifying law enforcement or social media companies of inappropriate online activity

District employees and substitutes who violate this policy will be disciplined or terminated. Discipline may include suspension with or without pay, a negative evaluation, prohibition from being on district property or at district activities, mandated training, or other appropriate remedial action. Volunteers who violate this policy will no longer be permitted to volunteer.

**Bullying Form Reporting Location**

www.fergflor.org/Bullying

The link provides access to an internal reporting form for incidents of bullying. Submissions will be reviewed by a member of Central Administration, the building principal or their designee, and/or the Human Resources Department, as appropriate. Introduction

The Ferguson-Florissant School District (FFSD) is committed to fostering a safe, engaging, and supportive learning environment where students, families, and staff work in partnership to ensure that all policies are implemented and monitored with equity and consistency. Our district's policies and regulations prioritize instruction and rehabilitation over punishment, with the goal of promoting positive behavior and maintaining strong student connections to school—ultimately supporting their success in graduating college- and career-ready.

We believe our schools are safest and most effective when students, parents/guardians/caregivers, and staff collaborate, respect one another's roles, and are collectively invested in restorative approaches to discipline.

FFSD Philosophy of Discipline

The Ferguson-Florissant School District (FFSD) Board of Education **Policy JG: Student Discipline** sets forth the expectation that FFSD schools will create environments that are conducive to learning. In addition to students' homes, schools are communities in which positive behavior is expected, modeled, and learned within an environment of civility and dignity.

The Ferguson-Florissant School District believes that discipline is a developmental process, and students' varied behavioral and developmental needs should be met with effective discipline strategies and tiered responses and interventions. A continuum of instructional strategies and disciplinary responses supports teaching and learning, fosters positive behaviors, and reflects a restorative discipline philosophy. Restorative practices afford students opportunities to learn from their mistakes, correct any harm that results from their behavior, and restore relationships that are disrupted by their conduct. Our school discipline practices are designed to engage students in the classroom so that students may become college and career-ready.

Fair, firm, equitable, and consistent application of the disciplinary procedure is expected, and students should be made aware of the consequences of misbehavior. However, school discipline should be administered in a manner to keep students within their regular school program to the greatest extent practicable. Suspensions, expulsions, and other exclusionary practices are to be used on a limited basis—our goal is for each and every student to experience academic and social success in the Ferguson-Florissant School District. This will be accomplished through ongoing professional development with all staff and through accountability measures outlined in rights and responsibilities.

Philosophical Statement

Students are successful when they feel nurtured and engaged in a supportive learning environment with fair and consistent behavioral expectations for all members of the school community. This is achieved by applying the adult-led procedures described within the Student Expectation Code consistently and without bias, reinforcing positive behavior, preventing misbehavior before it occurs, supporting students in overcoming challenges, and fostering and restoring positive relationships among all members of the school community.

Schools must also employ applicable legal protections when addressing discipline, and must not allow discipline to disproportionately impact specific groups of students based on race, color, creed, national origin, immigration status, religions, physical, mental, or educational disability, pregnancy, age, gender, gender expression, gender identity, genetic information, sexual orientation, marital status, veteran status or socio-economic status.

Purpose

The Ferguson-Florissant School District has created the Student Expectation Code to assure all stakeholders have direct access to the guiding principles and consistent procedures applicable to the administration of student discipline within all schools. All children have different needs, and our mission is to ensure that all children succeed. Towards that end, this document serves as a lens through which to view how the district will utilize preventative and restorative approaches to support students equitably even when they may make choices that negatively impact themselves or others. In order to promote equitable outcomes for students, this document identifies areas where interventions to support students in preventing negative behaviors are included or required and defines ranges and maximums for consequential actions. The Ferguson-Florissant School District intends to make plain the thought and care used to assure administrative procedures and disciplinary consequences are learning experiences for student growth and to ensure that our families are informed partners throughout the process of supporting students in being at their very best each and every day.

Student Expectations

Students should conduct themselves in keeping with their level of maturity, acting with due regard for the supervisory authority vested by the board in all district employees for the educational purpose underlying all school activities, for the widely shared use of school property, and for the rights and welfare of others.

Every student is expected to:

1. Comply with school and district policies and regulations.
2. Respect and obey all persons in authority.
3. Be prompt and regular in attendance, equipped with the necessary school supplies.
4. Meet classroom standards of behavior and performance.
5. Maintain appropriate habits of speech, dress, and personal cleanliness.
6. Cooperate with students who have been given special responsibilities.
7. Respect the dignity, rights, and property of others, and avoid any activity which may endanger the health and safety of others.
8. Assume responsibility for the care of school property.
9. Accept the consequences of their own actions.

These expectations and the district's Student Expectation Code will be part of the building procedures to be distributed and discussed with the students annually under the direction of the building administrator in charge before the end of the first month of school.

The Student Expectation Code of the Ferguson-Florissant School District provides a uniform standard of conduct for all students. It is meant as a guideline and not as an exhaustive list of all prohibited acts. The district shall annually review and evaluate the student expectation code and develop strategies for its implementation. Staff input shall be sought during this process.

- 11) Kidnapping, or kidnapping in the first degree when classified as a class A felony under § 565.110, RSMo.

For purposes of the Missouri Safe Schools Act and the District's Student Expectation Code policy, "charged" means that although there has been no final judgment, an indictment or information has been filed in an adult proceeding, or a petition has been filed in juvenile court. Although a hearing is not required by statute for mandatory exclusions under the Safe School Act, in certain cases, the District may elect to conduct a hearing regarding the existence of the charges or petition. Special rules may apply to a student with a disability who has been charged with or convicted of these offenses.

Nothing in this section shall prohibit the re-admittance or enrollment of any student when a charge has been dismissed, or when a student has been acquitted or adjudicated not to have committed any of the above acts. This section does not apply to a student with a disability, as identified under state eligibility criteria, who is convicted or adjudicated guilty as a result of an action related to the student's disability. Nothing in this subsection shall be construed to prohibit the District from enrolling a pupil in an alternative education program if the District determines such enrollment is appropriate. Refer to Section 167.171.

In addition to these offenses, which typically result in a mandatory exclusion, Section 167.161 permits school districts to suspend a student who has, as an adult, been charged with or convicted of, or pled guilty to, a felony criminal violation of state or federal law after notice to parents/guardians/caregivers or others having custodial care and a hearing upon the matter. When a student is suspended as a result of the student being charged with or convicted of, or having entered a plea of guilty to, a felony not listed above, a hearing before the Board of Education is required to remove the student from school.

In addition, the student may be reassigned by the Superintendent to another school in the District after the suspension.

LEVEL 5 BEHAVIORS

Level 5 behavior is student misconduct that is serious enough to result in a Superintendent's suspension of up to 180 school days or an expulsion.

When Level 5 Behavior Occurs:

School officials will investigate when they become aware that a Level 5 behavior may have occurred. The investigation normally includes an informal conference with the student suspected of misconduct. During the conference, the student will be informed of the charges and given an opportunity to admit or deny them. If the student denies the charges, the school official will explain the facts that support the proposed suspension and give the student an opportunity to present their version of the incident.

Community law enforcement agencies may be involved in investigations regarding Level 5 behaviors. Principals must notify police of Level 5 violations. Police also will be notified of any offense listed in the section titled **Reporting to Law Enforcement Officials (See also Policies JG-R1 and JGF)**. If possible, the student conference will take place prior to calling the police. Community law enforcement agencies have the authority to take a student into custody for criminal action or violation of the juvenile code.

If the principal concludes that a student has engaged in a Level 5 violation the principal may suspend the student for 10 school days with a recommendation for a long-term suspension unless there are circumstances that clearly indicate such a suspension is not warranted. The principal or designated school official will notify the student's parent/guardian/caregiver prior to sending the student home. The parent/guardian/caregiver must arrange for the student to be picked up from school or consent as to how the student will travel home. The principal or designated school official will inform the student's parent/guardian/caregiver orally and by letter of the suspension and that the matter is being referred to the Superintendent's office and the District Hearing Officer for possible further actions.

When a Level 5 violation has been committed, the principal has conducted an informal investigation and decided to recommend a long-term suspension; a written report of the incident will be sent to the Superintendent or designee and the District Hearing Officer within three (3) school days of the beginning of the principal's suspension. Within ten (10) school days, the District Hearing Officer shall give the suspended student and parent/guardian/caregiver an opportunity to present their perspective of the incident, review the principal's report and any other information the designee and/or the District Expectation Committee may consider concerning the suspension and the recommendation to the Superintendent concerning further disciplinary action.

Following this process, the Superintendent will review the matter and make a determination concerning whether:

- The student should be suspended for up to 180 school days
- Expulsion proceedings should be initiated
- Discipline reassignment should be considered
- Some other disciplinary approach should be pursued

The Superintendent will notify the student and student's parent/guardian/caregiver by letter of the decision concerning additional disciplinary action as a result of Level 5 behavior. Procedures applicable to students with a disability are described in Board of Education **Policy JGE- DISCIPLINE OF STUDENTS WITH DISABILITIES**.

LEVEL 4 BEHAVIORS

Student behaviors that involve a) safety, security, or the well-being of students/staff, b) multiple or repeated Level Three infractions, or c) other significant or more serious behaviors, as determined by the Administration, are considered Level 4 behaviors. Such behaviors will result in stronger interventions. While these types of behaviors often may involve other supporting staff, both school-based and within the broader community, they will also normally involve the removal of a student from the classroom/school environment. Students who engage in Level 4 behavior will not receive a Superintendent's suspension or an expulsion but will receive appropriate consequences from the principal or other school administrator. (See behaviors charts)

A student may not commit acts of sexual harassment or violence against anyone in school. Sexual harassment and violence include other verbal, written, physical, visual, or electronic contact of a sexual nature. Acts of sexual harassment should be reported to the building principal or to the Assistant Superintendent of Student Support Services.

Any disciplinary action to be taken is at the discretion of the school official. If Level 4 behavior results in a principal's suspension, the principal or designated official will hold an informal conference with the student prior to the suspension and will notify the student's parent/guardian/caregiver or designee. As with any suspension, during the conference, the student will be informed of the charges and given an opportunity to admit or deny them. If the student denies the charges, the school official will explain the facts that support the proposed suspension and give the student an opportunity to present their version of the incident.

If the principal determines that a suspension is necessary, the principal or designated school official will notify the student's parent/guardian/caregiver prior to sending the student home. The parent/guardian/caregiver must arrange for the student to be picked up from school or consent as to how the student will travel home.

LEVEL 3 BEHAVIORS

Student behaviors targeted at or targeting others, interfering with safety equipment and/or the safety of others, or are repeated or significant incident(s) of Level Two infractions will be considered Level 3. All Level 3 behaviors will be appropriately responded to by the principal or other school officials.

LEVEL 2 BEHAVIORS

Student behavior that is disruptive to the classroom and interferes with the learning of others, disordered behavior towards another student or school staff, or are repeated, or significant incident(s) of Level One infractions is considered Level 2. All Level 2 behaviors will be appropriately responded to by the principal or other school officials.

LEVEL 1 BEHAVIORS

Student behavior that is disruptive to the immediate space and/or a few others in the area, which does not follow reasonable request or behavior that is generally managed with a brief intervention by an adult present in that setting, is considered Level 1. All Level 1 behaviors will be appropriately responded to by the teacher, bus driver, or other school staff.

CONSEQUENCES OF STUDENT MISCONDUCT:

Possible consequences of student misconduct include, but are not limited to, the following:

Student Speakers: (See Policy INC-1: SPEAKERS AT DISTRICT EVENTS)

Commencement Privilege: (See IKFB: GRADUATION EXERCISES)

Participation in the graduation ceremony is a privilege, not a right. To participate in graduation exercises, a student must be in good standing with the Ferguson-Florissant School District, as defined by District guidelines.

Suspension: (See JGD: STUDENT SUSPENSION AND EXPULSION)

The Board of Education believes that the right of a child to attend free public schools carries with it the responsibility of the child to attend school regularly and to comply with the lawful policies, rules and regulations of the School District. This observance of school policies, rules and regulations is essential for permitting others to learn at school.

Suspensions

In Missouri, a principal may suspend a student for up to ten school days. A superintendent may suspend a student for up to 180 school days. Procedures for suspending a student are outlined below:

1. Before suspending a student, a principal or superintendent must (a) tell the student, either orally or in writing, what misconduct they are accused of; (b) if the student denies the accusation, explain, either orally or in writing, the facts that form the basis of the proposed suspension; and (c) give the student an opportunity to present their version of the incident.
2. If the principal or superintendent concludes that the student has engaged in misconduct punishable by suspension, the procedures described below apply. If the student has a disability as defined in the Individuals with Disabilities Education Act (IDEA) as amended or Section 504 of the Rehabilitation Act additional procedural safeguards described in the policy dealing with the discipline of students with disabilities apply.
3. The principal or superintendent should determine whether the student should be suspended or whether less drastic alternative measures would be appropriate. In many cases, the principal or superintendent may decide not to suspend a student unless conferences (between the teacher, student, and principal and/or between the parent, student, and principal) have been held and have failed to change the student's behavior.
4. If a suspension of up to ten school days is deemed warranted, the principal or designee shall promptly notify the student and the student's parent/guardian, or caretaker by letter of the decision. Such notification shall include the date(s) of suspension, the reason for suspension, information on how to access or complete school during the suspension, and information on who to contact for student support and additional resources.
5. Any suspension by a principal must be reported in a timely manner to the superintendent or designee by providing a copy of the suspension letter to the superintendent. The superintendent may revoke the suspension at any time, in part or in full. If the suspension is revoked, the student's records shall be amended to eliminate the suspension.

Long-Term Suspension or Discipline Reassignment

Where warranted and authorized, a principal may recommend a long-term suspension or discipline reassignment beyond ten school days. The superintendent may suspend a student for up to 180 school days or reassign a student to another school or program as a continuation of discipline. When a long-term suspension or discipline reassignment is being considered by the superintendent or designee, the following procedural steps shall be followed:

1. Prior to a long-term suspension or discipline reassignment, the superintendent or designee shall follow steps 1(a) through 1(c) as outlined above.
2. A written report of the incident shall be sent to the superintendent or designee within three school days from the beginning of the principal's suspension.
3. Within ten school days, the superintendent or designee shall notify the suspended student, parent/guardian, or caretaker in writing of the recommendation for long-term suspension or discipline reassignment and the reasons therefore and provide for a meeting with a committee of representatives from the administration. This notification shall also include a copy of the student's rights and responsibilities. At that meeting, the student and the parent/guardian, or caretaker shall have an opportunity to present their perspective of the incident, review the principal's report and any other information concerning the suspension, and the recommendation to the superintendent concerning further possible disciplinary action.
4. **The superintendent shall review the matter and make a determination concerning whether:**
 - o The student should be suspended for up to 180 school days; or
 - o Expulsion proceedings should be initiated; or
 - o Discipline reassignment should be considered; or
 - o Some other disciplinary approach should be pursued.
5. The superintendent will notify the student and student's parent/guardian, or caretaker by email and certified letter of the decision concerning additional disciplinary action. Such notification shall include the date(s) of suspension or reassignment, the reason for suspension or reassignment, notice of the right to appeal the outcome to the board of education, information on how to access or complete school during the suspension or reassignment, and information on who to contact for student support and additional resources.
6. If the student, parent/guardian, or caretaker continues to object to the long-term suspension and/or discipline reassignment, and the superintendent wishes to proceed with it, the student, parent/guardian, or caretaker shall have the right to appeal the superintendent's decision to the board of education.
7. If a long-term suspension is issued or a discipline reassignment is made, a conference will be held within ten school days with the student, parent/guardian, or caretaker, and appropriate district personnel to set goals during the long-term suspension or discipline reassignment to decide what progress is needed to consider early return, to identify the contact person for the district, and to discuss student support and additional resources.

Suspensions for More Than 180 School Days and Expulsions

Only the board may expel a student or suspend a student for more than 180 school days. The applicable procedures are outlined below:

1. Before recommending to the board that a student be expelled or suspended for more than 180 school days, the superintendent must follow the procedures for long-term suspension or discipline reassignment.
2. If the superintendent concludes that the student has engaged in misconduct and should be expelled or suspended for more than 180 school days, the procedures described below apply unless the student has a disability. (In the case of a student with a disability, the procedures described in the policy dealing with the discipline of students with disabilities shall apply.)
 - a. The superintendent will recommend to the board that the student be expelled or suspended for more than 180 school days. The superintendent may also immediately suspend the student for up to 180 school days.
 - b. Upon receipt of the superintendent's recommendation, the board will follow the procedures described in the section of this policy dealing with student disciplinary hearings.

3. If the student is expelled, they may later apply to the board for readmission. Only the board can readmit an expelled student.

Remedial/Re-Entry Conference

Prior to the readmission or enrollment of any student who has been suspended out of school or expelled in accordance with this policy for any "act of school violence" as defined in § 160.261.2, RSMo., and board policy JGF, a conference must be held to review the student's conduct that resulted in the suspension or expulsion and any remedial actions needed to prevent future occurrences of such conduct or related conduct.

This information will be recorded on a plan and copies will be given to all parties involved in direct contact with the student. The conference shall include the appropriate school officials, including any teacher directly involved with the conduct that resulted in the suspension or expulsion, the student, and the parent or guardian of the student or any agency having legal jurisdiction, care, custody, or control of the student.

The board of education shall notify, in writing, the parents or guardians and all other parties of the time, place, and agenda of any such conference. This requirement applies to enrolling students transferring from another school as well, regardless of whether the "act of school violence" was committed at a public school or at a private school in Missouri, provided that such act shall have resulted in the suspension or expulsion of such student in the case of a private school.

Note: Failure of any party to attend a scheduled conference or hearing shall not preclude the district from holding the conference or hearing.

Student Discipline Records (See JGF: Discipline Reporting and Records)

The board of education directs the superintendent or designee to compile and maintain records of any serious violation of the district's discipline policy for each student enrolled in the district. Such records shall be made available to all district employees with a need to know and shall be provided to any school district in which the student subsequently attempts to enroll within five business days of receiving the request, in accordance with state law. If a student is placed in another school by the CD, the records will be transferred to the new school within two business days after notification by the CD. Personally identifiable student records will only be released or destroyed in accordance with state and federal law.

Pursuant to Department of Secondary and Elementary Education (DESE) data reporting requirements, the district shall report rates and durations of, and reasons for, student suspensions of ten days or longer and expulsions.

Confidentiality

Any information received by a school district employee relating to the conduct of a student shall be received in confidence and used for the limited purpose of assuring that good order and discipline are maintained in the schools.

Ferguson-Florissant School District Internet Access Guidelines:

The internet offers many informational resources that are helpful for student projects, research, and other class assignments. Parents/Guardians/Caregivers, students, and District staff need to recognize that there are also sites on the internet, which are inappropriate for students due to student maturity, and/or site content. Such sites must be avoided by all using the District technology and quickly exit if they are encountered. The final responsibility to avoid inappropriate websites rests with the internet user.

All students in Ferguson-Florissant School District will have internet access when such access is determined appropriate by their teachers unless a parent/guardian/caregiver informs the principal in writing that they do not want the student to have internet access.

Any student who does not adhere to the following internet guidelines will have restricted network and technology access privileges through the District's network.

Students using the District's internet access will abide by the following expectations:

School Attendance

The Board of Education believes daily attendance is the initial step in achieving academic success. Education is a total process based on continual communication and shared responsibilities among parents/guardians/caregivers, students, teachers, and the school. The Board of Education recognizes a parent/guardian/caregiver has both a legal and moral responsibility to require and promote regular school attendance. Furthermore, the Board of Education believes that, as students mature and progress through the educational system, they should assume primary responsibility for regular and prompt school attendance. The professional staff recognizes a successful school experience is directly related to a sound pattern of attendance. Therefore, each teacher and administrator will expect regular and prompt daily attendance.

While the Board of Education seeks to provide educational services beyond the mere minimum requirements of the law, the law requires all children within the compulsory attendance age to attend regularly at a public, private, parochial, parish, home school, or a combination of such schools for the duration of the entire school term. The compulsory attendance age is between 7 and 17 years of age or, if under 17 until the student successfully completes 16 credits toward high school graduation. FFSD considers students with 10% or more absences to be considered chronically absent, regardless of reason. Students with chronic absences will receive additional support. [*The problem.* Attendance Works. (nod). Retrieved May 4, 2023, from <https://www.attendanceworks.org/chronic-absence/the-problem/>]

Per the Missouri Compulsory Attendance Law, Section 167.031 RSMo, any parent, guardian or other person having custody or control of a child between the ages of seven (7) and the compulsory attendance age for the district, must ensure that the child is enrolled in and regularly attends public, private, parochial, home school or a combination of schools for the full term of the school year.” A parent, guardian or custodian of a child or children who do not regularly attend school may be reported to the Department of Social Services, Children's Division, or to the county prosecutor's office. A violation of the compulsory attendance law is a class C misdemeanor. Section 167.061 RSMo.

1. School Attendance Responsibilities

Each school will monitor and keep accurate records of student daily attendance as required by law.

The building principal is responsible for supplying information to the parent/guardian/caregiver about student absences and for submitting accurate attendance information to District officials.

Students are required to be in class on time. The student is responsible for being present and ready to learn when the class is scheduled to begin.

Approximately every six weeks, the parents/guardians/caregivers shall be notified of their child's attendance. Additionally, parents/guardians/caregivers shall be notified of excessive absences or excessive tardiness through conferences, telephone calls, e-mails, letters, notices, or progress reports. School officials shall address such issues through the following: student-teacher conferences, parent/guardian/caregiver conferences, support personnel assistance (school nurse, counselor, social worker, administrator, and care team), Family Court referrals, and/or hotline calls to the Children's Division of the Missouri Department of Social Services (for students under age 16).

2. Teacher Responsibilities

Each teacher shall be responsible for taking and recording accurate attendance. Attendance is to be recorded by teachers in the District's student information system.

Each teacher shall be responsible for monitoring attendance and notifying the parent/guardian/caregiver when a student's course grade or credit is being adversely affected by excessive absences/tardiest.

Each teacher shall implement classroom attendance procedures that are consistent with this policy as well as building attendance procedures.

To the extent possible, students will be allowed to make up missed work. However, it may not be possible to recreate instruction or to make up many activities that occur during actual class time (discussions, formative assessments, videos, lab work, music rehearsals, and physical exercise). This may limit the ability of students to remain current in their coursework and may affect their overall progress.

Teachers will determine the best course of action to help a child make up the learning that was missed. When a student has a disability under Section 504 of the Rehabilitation Act and/or the individuals with Disabilities Education Act and absences impact progress in the curriculum, members of the child's IEP/504 team collaboratively will determine what accommodations and/or services are necessary to address the lack of access to the curriculum.

3. Parent/Guardian/Caregiver Responsibilities

Missouri law places the responsibility on parents/guardians/caregivers to ensure their children attend school.

4. Enrollment Status of Absent Students

Students whose parent/guardian/caregiver informs the school that the student will not be returning to school shall be dropped from daily attendance rosters. The same is true of students who are absent for fifteen (15) days or more, and school officials have inquired of the parent/guardian/caregiver as to the student's status but cannot determine whether the student will return to school.

5. Communication to Parents/Guardians/Caregivers

Each new student and their parents/guardians/caregivers, upon initial entry into the Ferguson-Florissant School District, shall receive a copy of this policy. Otherwise, the policy will be published annually on the District's website and made available to each family upon request. Building attendance procedures, which must be consistent with this policy, will be communicated to students and parents/guardians/caregivers annually.

6. Implementation

The District has developed building attendance management procedures for student attendance. Attendance management is the responsibility of the building principal. There shall be no appeal beyond the principal.

Truancy

Students who are absent from school without the knowledge and consent of a parent/guardian/caregiver and the school administration. A student may be subject to disciplinary action, which may include Level 2 or Level 3 administrative responses.

FFSD Directory Information

The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. Statute 1232g; 34 CFR Part 99) is a Federal law that protects the privacy of student educational records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

FERPA gives parents/guardians/caregivers certain rights with respect to their child's educational records. These rights transfer to the student when they reach the age of 18 or attend a school beyond the high school level. Students to whom the rights have transferred are "eligible students." Schools may but are not required to disclose educational records to parents/guardians/caregivers of eligible students who are listed as dependents on a parent's/guardian's/caregiver's federal income tax return.

Parents/Guardians/Caregivers or eligible students may inspect and review the student's education records maintained by the school. Schools are not required to provide copies of records unless, for reasons such as great distance, it is impossible for parents/guardians/caregivers or eligible students to review the records. Schools may charge a fee for copies.

If a parent/guardian/caregiver or eligible student believes an education record related to the student contains information that is inaccurate, misleading, or in violation of the student's privacy, the parent/guardian/caregiver or eligible student may use the appeals procedures created by the Superintendent or designee to request that the District amend the record.

Generally, schools must have written permission from the parent/guardian/caregiver or eligible student in order to release any information from a student's education record. However, FERPA allows schools to disclose those records without consent, to the following parties or under the following conditions (34 CFR Statute 99.31):

- School officials with legitimate educational interest
- Other schools to which a student is transferring
- Specified officials for audit or evaluation purposes
- Appropriate parties in connection with financial aid to a student
- Organizations conducting certain studies for or on behalf of the school
- Accrediting organizations
- To comply with a judicial order or lawfully issued subpoena
- Appropriate officials in cases of health and safety emergencies, and
- State and local authorities, with a juvenile justice system, pursuant to specific State law

Schools may disclose, without consent, "directory" information such as a student's name, address, grade level, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of athletic team members, dates of attendance, degrees, honors and awards received, the most recent educational agency or institution attended, and photographs. However, schools must tell parents/guardians/caregivers and eligible students about directory information and allow parents/guardians/caregivers and eligible students a reasonable amount of time to request that the school not disclose directory information about them.

Additionally, the District will disclose the names, addresses, and telephone numbers of secondary school students to military recruiters or institutions of higher education as required by law unless the parent/guardian/caregiver or eligible student notifies the District in writing not to disclose the information to those entities.

Parents/Guardians/Caregivers or eligible students, who do not want directory information released, must notify the school counselor in writing within 30 days after registration.

Parent/Caregiver/Guardian/ Protocol for Questions or Concerns:

The Board recognizes that situations of concern to parents/guardians/caregivers or the public may arise in the operation of the District.

The following procedures are to be followed by persons with questions or complaints regarding the operation of the school district:

1. Concerns on behalf of individual students first should be addressed to the teacher or appropriate staff member.
2. Unresolved matters from (1) above, or problems and questions concerning individual schools, should be directed to the assistant principal/principal of the school.

3. Unresolved matters from (2) above, or problems and questions concerning the school district, should be directed to the respective District level administrators then, if necessary, to the Superintendent.
4. If the matter cannot be resolved satisfactorily by the Superintendent, it should be brought to the Board of Education in writing. If necessary, a Board of Education hearing will be scheduled to resolve the complaint. The decision of the Board of Education shall be final except in the case of complaints concerning the administration of federal programs. In that case, the complainant may go to the appropriate section of the Missouri Department of Elementary and Secondary Education and from there to the United States Secretary of Education.

The Board of Education considers it the responsibility of all District staff to field the questions of parents/guardians/caregivers or the public and shall refer individuals with complaints to the proper staff member as outlined above.

Note: The list of behaviors is not intended to be all-inclusive, and that no student expectation code is exhaustive. The purpose of the code is to list certain behaviors which, if committed by a student, will result in the imposition of a range of disciplinary action. Any conduct not included herein or any aggravated circumstance of any infraction or combination of infractions may result in disciplinary consequences that extend beyond this expectation code as determined by the principal, Superintendent/designee and/or the Board.

The following is a list of District infractions that are a clear violation of District policy. This list is not all inclusive, and the final decision regarding unacceptable behavior will be at the discretion of school Administrators.
