School Counseling Program

The School Counseling program is an integral piece of the overall educational process. School Counselors provide a comprehensive program that supports students' academic, personal, social/emotional and career development. Growth and learning are developmental; therefore, guidance must be developmental and sequential. The need for guidance begins with pre-school entrance and continues throughout life.

The Comprehensive School Counseling Program is a K-12 developmental program that is concerned with all students while recognizing the fact that individuals have needs that will continue to require special attention. As a result, the comprehensive guidance program is for all students and becomes developmental rather than crisis-oriented.

What do Elementary Counselor Do?

Elementary School Counselors assist students in learning the skills and attitudes necessary to be successful learners. They help students learn that the classroom is their first workplace and that communication, decision-making, interpersonal and career awareness skills are important to their success.
